

A dark, atmospheric illustration featuring a large, dark dragon's head on the left, with its mouth slightly open. To the right, a full moon hangs in a dark, cloudy sky. The scene is set against a dark, textured background that suggests a forest or rocky terrain.

Long, long ago,

Dragons were revered and worshipped as gods.

Long,

They were complete beings that were above the world's laws.

and were considered as a natural phenomenon that could not be changed.

“Dragon.”

Where??

The Earth  
Dragon, “Muryak.”

The left: Shylock and  
me in the Labyrinth.

It seems she was  
being held underground  
by the humans.

As soon as the seal  
broke under  
the pressure,  
she reverted  
to her original form to  
protect herself.

It's been eight years since  
Naryak left the Labyrinth.

The Dragon that was  
fragmented into three

was exposed to so  
many years of human  
malice and

soon, she will  
become something  
that can no longer  
be called a Dragon.

Before that happens,  
we must reunite the  
fragmented pieces to try and  
preserve her existence.
